### MAJOR PROGRAM CHANGES

- **Adult Incarcerated and Parolee Population**—Compared to the 2021 Budget Act projections, the adult incarcerated average daily population is projected to decrease by 1,705 in 2021-22, and increase by 6,605 in 2022-23, to a total of 104,554 and 112,864, respectively. The 2021-22 decline is primarily due to actions taken to reduce the prison population in response to COVID-19 and the 2022-23 increase is largely due to the resumed intake of individuals sentenced to prison but held in county jails pending transfer to state prison. Compared to 2021 Budget Act projections, the average daily parolee population is projected to remain the same in 2021-22, with a slight increase of 9, followed by a decrease by 4,716 parolees in 2022-23, totaling 54,244 and 49,499, respectively. The decline in 2022-23 is related to an overall decrease in the incarcerated population and shorter parole terms. When compared to the projected average daily population at the 2021 Budget Act, these changes result in a decrease of \$56.9 million General Fund in 2021-22, and a decrease of \$19.4 million General Fund in 2022-23.
- **Division of Juvenile Justice (DJJ) Population**—Compared to the 2021 Budget Act projections, the Budget estimates an average daily population of 657 youth in 2021-22 and 544 youth in 2022-23, which represents an increase of 44 youth in 2021-22 and a decrease of 69 youth in 2022-23, respectively. Accordingly, the Budget reflects an increase of \$1.8 million General Fund in 2021-22 and a decrease of \$10.1 million General Fund in 2022-23. Per Chapter 337, Statutes of 2020 (SB 823) and Chapter 18, Statutes of 2021 (SB 92), DJJ ceased intake on July 1, 2021, except under certain circumstances. The temporary increase in 2021-22 is the result of DJJ processing a backlog of youth committed prior to July 1, 2021, due to pausing intake in response to COVID-19. DJJ is scheduled to close on June 30, 2023.
- **Adult Medical and Pharmaceutical Programs**—Compared to the 2021 Budget Act projections, the adult population receiving in-prison medical services is projected to decrease by 777 in 2021-22, and increase by 6,767 in 2022-23, for totals of 100,950 and 108,484 respectively. Based on the current Medical Classification Model staffing ratios, these changes will result in a decrease of \$569,000 General Fund in 2021-22 and an increase of \$11.2 million General Fund in 2022-23. The Budget also includes decreases of \$14.8 million General Fund in 2021-22 and \$18.2 million General Fund in 2022-23 based on current pharmaceutical cost projections.

**5225 Department of Corrections and Rehabilitation - Continued**

- **Mental Health Program**—Compared to the 2021 Budget Act projections, the population requiring outpatient mental health treatment is projected to increase by 6,694 in 2021-22 and 8,192 in 2022-23, for totals of 34,798 and 38,770, respectively. These changes result in increases of \$47.9 million General Fund in 2021-22 and \$76.4 million General Fund in 2022-23.
- **COVID-19 Direct Response Expenditures**—The Budget includes \$205.6 million one-time General Fund in 2021-22 and \$424.7 million one-time in 2022-23 for direct response costs associated with preventing, mitigating, and responding to the impacts of the COVID-19 Pandemic.

These resources will reestablish removal services at 21 institutions initially funded in the 2019 Budget Act, but subsequently cut in the 2020 Budget Act due to fiscal constraints, and extend them to all institutions.

The main components of supervision utilize the California Parole Supervision and Reintegration Model, which incorporates evidence-based practices into the Division of Adult Parole Operations' supervision strategies to elicit long-term behavioral change to reduce recidivism. Standard and specialized caseloads and the degree of supervision are determined by case factors related to the offender's risk and current service needs. Case supervision, reassessment, and reclassification are regularly scheduled based on parolee behavior and stability in the community. Other components of supervision include the Sex Offender Management Program, which incorporates the containment model strategy as required by statute, and Global Positioning System (GPS) monitoring for all sex offenders.

These hearings include individuals sentenced to life with the possibility of parole once they have served a certain amount of time based on the sentence; inmates sentenced to life with the possibility of parole for a nonviolent offense under an alternative sentencing scheme, such as the state's Three Strikes Law, once they have served a certain amount of time based on their commitment offense; inmates who were under the age of 26 at the time of their offense, who have served a minimum of 15, 20, or 25 years of continuous incarceration, depending on the sentence, and who are eligible for a youth offender hearing; and inmates eligible for the Elderly Parole Program.

The Board also conducts medical parole hearings, hearings for certain parole violators, and determines whether parolees should be discharged from parole. Screenings are conducted for offenders with mental health disorders and sexually violent predators, and subsequent hearing referrals are made to the Department of State Hospitals for mental health treatment. In addition, at the Governor's request, the Board investigates applications and forwards recommendations for pardons, reprieves and commutations of sentence, including those involving the death penalty. It also has the discretion to recommend to the court that a prisoner's sentence be recalled due to the inmate's significant health condition.

For juvenile offenders, the Board of Juvenile Hearings is responsible for discharges of commitment, orders for discharge from the jurisdiction of the Division of Juvenile Justice to the jurisdiction of the committing court, and disciplinary appeals.

**5227 Board of State and Community Corrections**

The mission of the Board of State and Community Corrections (BSCC) is to provide statewide leadership, coordination, and technical assistance to promote effective state and local efforts and partnerships in California's adult and juvenile criminal justice system, including technical assistance and coordination to local governments related to 2011 Public Safety Realignment. This mission reflects the principle of aligning fiscal policy and correctional practices including prevention, intervention, suppression, and supervision. The goal is to promote a justice investment strategy that fits each county and is consistent with the integrated statewide goal of improved public safety through cost-effective, promising, and evidence-based strategies for managing criminal justice populations.

Because the Board of State and Community Corrections' programs drive a need for infrastructure investment, the Board has a capital outlay program to support this need. For the specifics on the Board's capital outlay program see "Infrastructure Overview."

**5420 Prison Industry Authority**

The California Prison Industry Authority (CALPIA) is a self-supporting state entity operating California's correctional industries in a manner similar to private industry. The CALPIA is overseen by the Prison Industry Board, which acts much like a corporate board of directors. The Board is composed of 11 members, including the Secretary of the California Department of Corrections and Rehabilitation (CDCR) or his or her designee, the Director of the Department of General Services or his or her designee, the Secretary of the California State Transportation Agency or his or her designee, two public members appointed by the Speaker of the Assembly, two public members appointed by the Senate Committee on Rules, and four members appointed by the Governor representing organized labor and industry. The Secretary of CDCR or his or her designee serves as chair of the Board.

CALPIA supports the public safety mission of CDCR by producing incarcerated individuals that have job skills, good work habits, basic education, and job support in the community to reduce the likelihood of returning to prison. CALPIA's work programs also help CDCR to avoid the cost of alternative programming for incarcerated individuals.

CALPIA has three statutory objectives: (1) develop and operate manufacturing, agricultural, and service enterprises that provide work opportunities for incarcerated individuals under the jurisdiction of CDCR; (2) create and maintain working conditions within enterprises similar to those which prevail in private industry to assure incarcerated individuals assigned therein the opportunity to work productively to earn funds and to acquire or improve effective work habits and occupational skills; and (3) operate work programs for incarcerated individuals that are self-supporting through the generation of sufficient funds from the sale of products and services to pay all program expenses, and which provide goods and services to be used by CDCR, thereby reducing the costs of its operation. CALPIA receives no annual appropriation from the Legislature.
